

8build Ltd are a medium sized construction company based in London. We chose the Prodefinity Slot Booking system to manage loading/unloading at project sites.

The system did require a lot of modifications to meet our requirements. Prodefinity was extremely helpful and easy to work with on this project. They were very responsive to our requests and dealing with Kamil was a pleasure.

We are very pleased with the results.

Richard Hiatt
IT Consultant

A handwritten signature in black ink, appearing to read 'R Hiatt', with a long horizontal flourish underneath.
